

Township 10, Range 10.

This is one of the finest Townships of land in the county, beside having the best improvements, and best natural and artificial advantages. In the north part, on Section 4, is the thriving little village of Greenfield; in the south, on Section 34, is Sheffield, both having the Rockford, Rock Island and St. Louis Rail Road passing through them. The village of Fayette is also in this Town-

ship. Nearly one-half the Township is timber lands, the balance being the finest prairie. Taylor Creek and its tributaries, and Hodges Creek water it. And all taken into consideration makes this Township one of the most desirable in the county.
